

Fresh-Lock Slider

mini SLIDER

Minimize Size. Maximize Performance.

Consumers demand resealability, freshness, and ease of use. We answer with the Fresh-Lock® mini Slider, an ideal solution for lightweight products and smaller flexible packages. Plus, because less manufacturing material is required, the mini Slider is less costly than other premium closures.

AFFORDABILITY

The mini Slider premium closure is more affordable than traditional sliding closures while still offering industry-leading technology.

THE PERFECT FIT FOR YOUR MARKET

- Coffee and Tea
- Pet Food and Treats
- Cigars and Tobacco
- Shredded Cheese
- Confectionery

Innovation that uses less material to satisfy market needs

Well-suited for stand-up pouch applications, the Fresh-Lock® mini Slider sets brands apart from the competition, standing out on shelves and gaining brand loyalty. The mini Slider's sleek, compact design maximizes functional value and complements a diverse product portfolio from the world's slider closure authority.

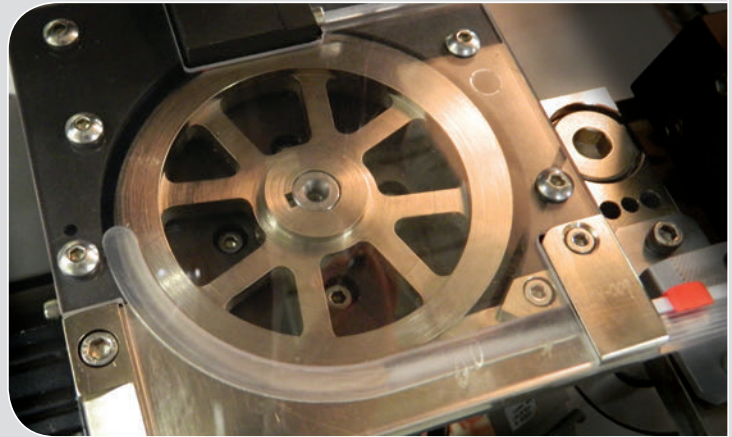

FEATURES

- Apply on form, fill and seal, or pouch making equipment
- Simplified insertion technology enabling high-speed operation
- Compact design for easy open/easy close action

ROTARY INSERTER MAKES PACKAGING EASY

- Can be integrated for intermittent and continuous pouching processes
- Integrated into your machine or as a stand-alone machine
- Ideal for high-speed applications
- Simplex and duplex capabilities

Contact one of our track and slider sales professionals today, and we'll find a solution for virtually any flexible packaging need.
